Chairman Cole and Ranking Member DeLauro,

I am requesting funding for Cave Springs Water Storage Improvements in fiscal year 2027. The entity to receive funding for this project is the City of Cave Springs, located at 134 N. Main Street, Cave Springs, AR 72718. As the population of Cave Springs grows, the strain this puts on other water systems magnifies, leading to limitations in the city's ability to offer adequate flow and access to its residents. The funding would be used for the construction of a 2,000,000-gallon water tower to provide dedicated access for the city's residents and businesses. The project is an appropriate use of taxpayer funds because it will provide necessary system resiliency to ensure adequate flow and access to the city's residents and that continued economic investment can be accommodated.

The project has a federal nexus because the funding provided is consistent with purposes authorized in 42 U.S.C. 5305(a)(2)

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Steve Womack
Member of Congress
