Chairman Cole and Ranking Member DeLauro,

I am requesting funding for East Side Water System Improvements in fiscal year 2027. The entity to receive funding for this project is Springdale Water Utilities, located at 526 Oak Avenue Springdale, Arkansas, 72764. The funding would be used to expand water infrastructure, including a 30-inch transmission main, to support safe and reliable water delivery for the growing population. The project is an appropriate use of taxpayer funds because it will provide adequate water supply to the town's residents in an area that is currently economically and geographically constrained.

The project has a Federal nexus because the funding provided is consistent with purposes authorized in Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Steve Womack
Member of Congress
