The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations

Chairman Cole and Ranking Member DeLauro,

I am requesting funding for Lincoln Wastewater Improvements in fiscal year 2027. The entity to receive funding for this project is the City of Lincoln, located at 101 E. Bean Street, Lincoln Arkansas, 72744. The funding would be used to replace deteriorating and outdated sewer main lines, contributing to excess flow at the city's wastewater treatment facility, as well as for the refurbishment of and installation of manholes, mitigating unintended infiltration and inflow of excess water into the sewer system. The project is an appropriate use of taxpayer funds because it will ensure long-term operational security of the city's sewer and wastewater infrastructure, protect residents access to clean and safe water, and enable continued development through modernization of city infrastructure.

The project has a federal nexus because the funding provided is consistent with purposes authorized in 42 U.S.C. 5305(a)(2)

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Steve Womack  
Member of Congress
